

HARINDER SINGH

SHAREPOINT & POWER PLATFORM DEVELOPER

Chennai, India | +91-9911446838 | singh.harry050296@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven SharePoint and Microsoft Power Platform Developer with 5+ years of hands-on experience in building scalable enterprise solutions, automating business processes, and integrating Microsoft 365 services. Skilled in Power Apps (Canvas & Model-driven), Power Automate, SharePoint Online, Dataverse, and Azure DevOps. Adept at low-code/no-code development, governance, performance optimization, and promoting user adoption. Committed to developing user-friendly applications.

EXPERIENCE

SharePoint and Power Platform Developer - Senior Associate Consultant

Infosys Ltd | Chennai, India

Mar 2025 - Present

- Developed Power Apps applications that reduced manual workload by 70% and improved user experience.
- Automated multi-system workflows via Power Automate integrating Outlook, Dataverse, and SharePoint.
- Implemented metadata-driven navigation and advanced permission models in SharePoint Online.
- Led CI/CD processes using Azure DevOps pipelines for efficient ALM across Power Platform apps.
- Optimized performance of complex apps by applying query delegation, caching, and lazy loading.

SharePoint and Power Platform Developer - Sales Enablement III

DXC Technology | Chennai, India

May 2020 – Mar 2025

- Delivered department-specific Power Apps solutions, significantly enhancing process and speed.
- Built flows to connect legacy systems, enabling real-time data sync and reducing human errors.
- Created dynamic Power BI dashboards to inform leadership decisions with actionable insights.
- Collaborated with business stakeholders, led UAT, and conducted user enablement workshops.
- Converted legacy Win Automation bots to Power Automate solutions, saving licensing costs.

SKILLS

- Power Platform: Power Apps (Canvas, Model-driven), Power Automate, Power BI, Power Fx
- SharePoint: SharePoint Online, REST API, Conditional Formatting, Permissions Management
- Integrations: Dataverse, Teams, Outlook, Excel, SQL
- DevOps & Lifecycle: CI/CD with Azure DevOps, ALM, Git
- Others: HTML/CSS, Version Control, Governance, Documentation & End-user Training

CERTIFICATIONS

- Microsoft Certified: Power Platform Fundamentals (PL-900) – June 2023
- Data Science Certificate – Edwisor

PROJECT HIGHLIGHTS

Enterprise Leave Management System

- Replaced manual email-based process with Power Apps + Power Automate solution.
- Reduced approval turnaround by 40% using real-time tracking and role-based flows.

Centralized Project Tracker

- Migrated Excel-based task tracking to Power Platform, improving visibility and accountability.
- Integrated Gantt charts, Power BI dashboards, and automated alerts for delayed tasks.

Proposal Generator App

- Designed a dynamic proposal builder in Power Apps reducing creation time from 2 hours to 15 mins.
- Integrated pre-filled fields like client name, scope, and pricing using SharePoint metadata.

Bot Automation with Power Platform

- Developed 13 unattended bots to replace swivel tasks across Aries and Aldea tools.
- Implemented auto-assignment and closure workflows, eliminating redundant human intervention.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science

Maharshi Dayanand University | Rohtak
